

Field Trip, In-House Learning & Art Enrichment

Ideas for Teachers

The Ben Franklin PTA is excited to offer a budget of \$6,600 for In-House learning workshops this school year and \$3,000 for Art Enrichment programs. We encourage you to think of it as \$300 per class toward supporting education enrichment outside of the classroom and \$500 per grade toward supporting Art specific enrichment outside of the classroom.

Traditionally at Franklin the PTA has paid for a Professional Science Program. The PTA has voted to extend the scope of this budget to include all “in-house field trips”. These are educational opportunities, where an outside program or expert comes to you. These programs are often far more cost effective than traditional field trips. The budget for this year’s in-house learning programs is \$6,600 or \$300 per class. So as a classroom teacher, **you have an additional \$300 for In-House learning**, from the PTA. Some programs will also allow you to pool funds together by grade offering a grade level program such as a theater performance or visit from the Toymaker. If this works for your grade level team, we encourage you to combine funds to either offer more programs or a more expensive program than you could get as just one class. Depending on the programs chosen, the offered budget should allow for one or two in-house learning opportunities per class for the school year. **Funding for in-house learning and programs are paid directly by the PTA.**

In addition to an In-House learning budget, **each grade now has \$500 for Art Enrichment** specific programs to be brought to the school.

We appreciate that teachers are busy, and we have taken the liberty of compiling an ideas list. **This is not an all-inclusive list**. If you have a program you are interested in that you feel is better aligned with the curriculum, we can work together to make it happen. You may find ways to stretch your dollars further if several classes have the same program visit, as the costs are often lower.

Many popular programs *tend to fill quickly*, so we encourage you to contact Jen Gill at your earliest convenience, as many vendors offer discounts for programs booked for October thru December.

Field Trips – white rows								
In house field trips (they come to the classroom) - blue rows								
Field Trip programs are appropriate K – 5, unless otherwise specified								
Just click on the <u>Title</u> and you will go right to the web-page for more information								
For updates, suggestions, email education@mybenfranklinpta.org Thanks!
